

HIGH-EFFICIENCY TOILET

HET Rebate

UP TO
\$150

List of Qualifying Toilet Models

Spring 2009

HET Rebates Available

Get up to \$150 back on the purchase of qualified, high-efficiency toilets (HET). Contact your water or sanitation service provider for more information and an application for the rebate before purchase. Requirements and restrictions apply and vary by agency.

This list of qualifying toilet models is updated periodically and is valid for the service providers listed below. To view or download the most current list, visit www.sonomacountywater.org/rebates or call.

Participating Water and Sanitation Providers

- North Marin Water District - (415) 897-4133 ext. 8711
- City of Petaluma - (707) 778-4507
- City of Rohnert Park - (707) 547-1906
- City of Santa Rosa - (707) 543-3985
- City of Sebastopol - (707) 823-7863
- City of Sonoma - (707) 547-1968
- Sonoma County Sanitation - (707) 547-1918
 - Airport/Larkfield/Wikiup Sanitation Zone
 - Geyserville Sanitation Zone
 - Occidental County Sanitation District
 - Penngrove Sanitation Zone
 - Russian River County Sanitation District
 - South Park County Sanitation District
- Sonoma Valley County Sanitation District - (707) 547-1968
- Valley of the Moon Water District - (707) 547-1968
- Town of Windsor - (707) 838-5357

Look For the WaterSense Label

All WaterSense labeled toilets are qualified for rebate from participating water providers. Each WaterSense labeled toilet meets U.S. Environmental Protection Agency (EPA) standards for performance and water efficiency.

For more information on WaterSense and WaterSense labeled products, visit the EPA website at:

www.epa.gov/watersense

Abbreviations

- WS - WaterSense Labeled Toilet
- MaP Score - Maximum Performance Testing Score
- NM - Not Measured for maximum performance, flushes at least 350 grams to meet EPA WaterSense standards
- DF - Dual Flush
- PA - Pressure Assist
- GF - Gravity Assist
- EL - Elongated Bowl
- RF - Round Front Bowl
- ADA - Americans with Disabilities Act Compliant

HIGH-EFFICIENCY TOILET

Uses 20% LESS water than an Ultra Low Flush Toilet

Maximum Performance (MaP) Testing - a new and better measurement of toilet performance!

Many toilet fixture performance tests exist, including proprietary tests by the fixture manufacturers, tests by Consumer Reports magazine, and the tests mandated by the plumbing codes for fixture certification. Few of these, however, use test media that closely resembles the real “demands” upon a toilet.

The Maximum Performance (MaP) testing project was undertaken in 2003 in order to identify how well popular toilet models perform using a realistic test media. A new testing protocol, cooperatively developed by water-efficiency and plumbing fixture specialists in the U.S. and Canada, incorporated the use of soybean paste as a test media, closely replicating the “real world demand” upon fixtures. This protocol has been adopted by the U.S. Environmental Protection Agency for their WaterSense program.

The test media is measured in grams and toilet performance is determined by how much test media it can successfully flush. Toilets on this list of qualifying models have a MaP test performance of at least 500 grams or are WaterSense labeled.

For more information on MaP testing and to download the complete report, visit www.cuwcc.org/MapTesting.lasso
