INTRODUCTION

This booklet contains a list of all City fees that might be required of a new or expanding business or residential project in Santa Rosa. The purpose of these fees is to pay for the installation of public utilities and service facilities needed to serve the property being developed, to collect charges for the use of certain facilities from those benefitting by those services and to help pay the costs borne by the City in providing preconstruction, construction, inspection and public safety services.

Some fees change on an annual basis; others may be instituted at City Council discretion. Although the information provided here is as current and complete as possible, it is best to check with City staff to ensure that there are no other requirements that your project might need to meet.

APPLICATION FEES

Application fees for entitlement permit services are collected at the time an application is submitted. These fees are designed to recover the costs of staff time spent reviewing and processing the applications. These fees are payable at the Department of Community Development, City Hall Room 3, 100 Santa Rosa Avenue.

In addition to the fees shown below, your project may require an Environmental Impact Report. These reports are funded by the applicant, managed by City staff and completed by a private consultant. The developer may also be financially responsible for any mitigation measures identified by the Environmental Impact Report.

(4) There are two different fees for proposed Landmark Alterations, as follows.

- a) **Landmark Alteration Permit “Minor”**
 Application filed at Community Development Counter, Room 3, and reviewed by staff. Decision rendered by staff after review for compliance with Design Guidelines. Surrounding properties and the Cultural Heritage Board will receive notification of staff action. - b) **Landmark Alteration Permit “Major”**
 Application filed at Community Development Counter, Room 3, reviewed by staff and sent to the Cultural Heritage Board for determination. (6) Requires Subdivision Committee Public Hearing Fee

Application fees are adjusted annually in July based on the percentage change in the Bureau of Labor Statistics San Francisco/Oakland/San Jose Consumer Price Index - All Urban Consumers (CPI-U).

(7) Requires Design Review Board Public Hearing Fee

(8) Requires Cultural Heritage Board Public Hearing Fee

IMPACT FEES

This section contains information on various impact fees which are charged to pay for infrastructure or services which are needed to serve development. Development projects may be subject to more than one of these impact fees.

CAPITAL FACILITIES FEE

The Capital Facilities Fee was established to pay for certain public infrastructure facilities required to serve new development within the City. Infrastructure funded by the CFF includes street widening, traffic signals, freeway interchanges, bike paths, and storm drains. This fee is typically paid prior to the issuance of a building permit, at the Department of Community Development, City Hall Room 3, 100 Santa Rosa Avenue.

<u>Development Type</u>	<u>Fee (Effective January 1, 2012)</u>
Residential, Very Low Density (0 to 1.99 units/acre)	\$5,674 / unit
Residential, Low Density (2 to 7.99 units/acre)	\$4,953 / unit
Residential, Medium-Low Density (8 to 12.99 units/acre)	\$4,530 / unit
Residential, Medium Density (13 to 17.99 units/acre)	\$4,044 / unit
Residential, Medium-High Density (18 to 30+ units/acre)	\$3,363 / unit
Second Dwelling Unit	\$3,363 / unit
Retail	-
Southwest Area Plan	\$2.95 / gross square foot

Northwest	\$9.29 / gross square foot
Other Southeast	\$9.29 / gross square foot
Commercial	\$5.59 / gross square foot
Office	\$3.90 / gross square foot
Industrial	\$2.39 / gross square foot
Mini Warehouse	\$0.94 / gross square foot
Congregate Care Facility	\$862 / unit or room
Churches	\$0.73 / gross square foot
Private Schools	\$3.82 / gross square foot
Drug Rehabilitation Center	\$3.72 / gross square foot

Notes:

- ◆ Quadrant boundaries are U.S. 101 and Santa Rosa Creek.
- ◆ "Other uses" are determined by the Director of Community Development. Other uses include all uses not specified above, including, but not limited to, hospitals, rest homes, other care facilities, and day care centers. Variable" is as determined by the Director of Community Development and consistent with the provisions of Ordinance No. 3322.
- ◆ To determine a fee for service stations, an estimate of square footage is made utilizing the number of cars which can be served simultaneously. Multiply the number of cars which can be served by 250 square feet. The result of this calculation is added to any other retail square footage proposed to determine the fee paid.

- ◆ The Capital Facilities Fee is adjusted on January 1 of each calendar year by a percentage equal to the percentage change in the Engineering News-Record Construction Cost Index for San Francisco for the 12-month period ending November 30th of the prior year and the Real Estate Valuation. This adjustment will offset the effects of inflation-related cost increases or any deflation-related cost decreases.

Applications Subject to Capital Facilities Fee

- ◆ Applications for building permits to construct, or add to, a residential or non-residential structure.
- ◆ Applications for conditional use permits to change a building's use which does not require a building permit to initiate the use. The fee charged shall be the incremental difference between the current Capital Facilities Fee for the prior use and the current Capital Facilities Fee for the new use.

Exemptions

The following activities are exempt from the Capital Facilities Fee:

- ◆ Demolition and reconstruction of a residence on the same site where the additional living area, if any, shall not exceed 400 square feet and where no additional dwelling units are created.
- ◆ Remodeling or addition to an existing residential unit creating 400 square feet or less of additional living space. (The fee for additions of more than 400 square feet is determined by the Director of Community Development - see below).
- ◆ Alteration, remodeling, or reconstruction of a non-residential structure which does not increase the floor area or change the use in existence on August 25, 1997 (effective date of Capital Facilities Fee).

Calculation of Fee for Residential Additions More than 400 Square Feet

- ◆ Determine the square footage of the addition and existing residence.
- ◆ Divide the square footage of addition by the sum of the square footage of existing residence and the addition.
- ◆ Multiply the result by the appropriate fee from chart on page 5.

Example: A building permit applicant wishes to add 500 square feet to an existing 1,000 square foot residence designated Low Density Residential by the General Plan.

$$(500 / (500 + 1,000)) = \$4,998 = \$ 1,666 \text{ fee}$$

Water demand fees are charged for connection to the water system. Residential demand fees are one time only fees. Non-residential and irrigation fees are determined by Utilities Department staff and based on maximum monthly usage. If the type of non-residential use changes, additional demand fees may be due.

The amount of flow required to determine the irrigation demand fee is based on landscape plans conforming to the Water Efficient Landscape Policy. The flow calculations are performed by the Water Conservation Division.
- ◆ Irrigation meter size is based on the highest flow through the meter based on the design of the irrigation system.

WASTEWATER FEES

Demand Fees

Wastewater demand fees are paid for connection to the sewer system. Residential demand fees are one time only fees. Non-residential fees are determined by Utilities Department staff and based on type of use. If the type of non-residential use changes, additional demand fees may be due.

	<u>Demand Fee</u> as of <i>January 1, 2012</i>
Single Family Unit, Lot over 1 acre (43,560 sq ft)	\$16,231
Single Family Unit, over 6,000 sq ft to 1 acre	\$14,398

Second Dwelling Units, Second Units or Senior Units	\$5,237
Non-residential / Industrial – Per 1,000 GPM and estimated monthly wastewater factor on table	Minimum 1,000 GPM \$2,618

Notes:

- ◆ A processing fee of \$510 is charged per unit.
- ◆ Demand fee for non-residential and industrial uses shall be based on a fee rate of \$2,618 per thousand gallons per month and the estimated monthly wastewater flow. Projects in the Oakmont Planned Community are exempt from the sewer demand fee.

Credit for Existing Connections

- ◆ Parcels with existing connections will receive a credit towards demand fees. Contact Utilities Engineering to determine applicable credits.

OTHER IMPORTANT INFORMATION REGARDING UTILITIES FEES

- ◆ Mixed residential/commercial uses must be separately metered and pay separate demand fees.
- ◆ Demand fees for shell non-residential or industrial buildings will be calculated at the warehouse rate and will be due prior to issuance of the Building Permit. The irrigation demand fees will be due prior to setting the irrigation meter. Any types of use to occupy the shell building or portions of the shell building with a higher rate of flow than warehouse will have additional fees due prior to issuance of the Tenant Improvement Permit.
- ◆ When one unit on a lot is proposed to be connected to City wastewater or water, all units on the lot must be connected.

Utility Fee Scenarios:

#1: A Single Family Dwelling on a 6,500 sq ft subdivision lot with sewer and water stubbed out to the property:

Water Demand Fee	\$8,613.00
Water Processing Fee	\$510.00
1" water meter	\$350.00
Sewer Demand Fee	\$14,398.00
Sewer Processing Fee	\$510.00
Total	\$24,381.00

#2: A 10,000 sq ft office building on a vacant lot. Estimated peak monthly irrigation use is 20,000 gallons per month.

For office use, the average monthly flow is 900 gallons per month per thousand square feet (see Table 15-1 of Ordinance #3663). $900 \times 10 = 9,000$ gallons per month. This is the minimum water & sewer demand purchase. If use is higher, additional demand must be purchased. Water is purchased at a rate of \$560 per thousand gallons per month. Sewer at a rate of \$2,618 per thousand gallons per month.

Domestic Water Demand Fee	$9 \times \$574 =$	\$5,166.00
Irrigation Water Demand Fee	$20 \times \$574 =$	\$11,480.00
Water Processing Fee	$\$510 \times 2 =$	\$1,020.00
2 - 1" water meters	(irr. & dom.) $\$350 \times 2 =$	\$700.00
Backflow inspection fee	for backflow on irrigation service	\$45.00
Sewer Demand Fee	$9 \times \$2,618.00 =$	\$23,562.00
Sewer Processing Fee		\$510.00
Total		\$42,483.00

In each of these scenarios additional fees may apply. For example fire flow tests may be required, meter sizes may vary, backflow inspections may be necessary, or if fire sprinklers are required, additional meter and backflow fees will also apply.

FOR MORE INFORMATION, CONTACT THE UTILITIES DEPARTMENT, 543-3950

PUBLIC ART IN PRIVATE DEVELOPMENT

Any commercial development project (not including industrial) with construction costs exceeding \$500,000 shall contribute no less than 1% of the construction costs to publicly accessible art. The contribution may be made by providing public art work or payment of in-lieu fees. A combination of these options is also available. Planning for this aspect of your development should begin at the earliest possible stage and be completed prior to occupancy of the project.

For more information on the Public Art in Private Development process, please contact Tara Matheny-Schuster, Arts Coordinator, at (707) 543-4512, or email to tmatheny-schuster@srcity.org.

SCHOOL IMPACT FEES

The school impact fee is designed to cover the costs of adding school rooms for the increased enrollment caused by new residential and commercial development. The fees are collected by each individual school district and must be paid at the time of building permit application. **The information below was collected in December 2004 and should be confirmed with the district.**

- ◆ The statutory fee is charged unless a property owner has signed an agreement to pay the mitigation fee.
- ◆ The maximum statutory fee for non-residential and senior housing projects is \$ 0.36 per square foot (\$0.25 for elementary and 0.11 for high school district). Some districts may charge less.
- ◆ All high school fees are paid to Santa Rosa City School District. Elementary school fees are paid at the individual districts.

HOUSING ALLOCATION PLAN FEE (Effective January 1, 2012)

The Housing Allocation Plan was established to assist in the development of affordable housing in Santa Rosa. Most residential projects of 15 acres or less pay a fee for the development of housing for lower income households. This fee is paid at the Department of Community Development, City Hall Room 3, 100 Santa Rosa Avenue. Projects of more than 15 acres must provide 15 percent of the total project units as affordable to low income households. See the Housing Allocation Plan for additional provisions, including exemptions.

Due to changes in the Housing Allocation Plan Ordinance since its adoption in 1992, the fee varies, based on the date of a project's final discretionary approval. The following outlines the applicable fee by approval date.

- ◆ Projects approved prior to July 24, 1991 are exempt from Housing Allocation Plan
- ◆ Projects approved between July 24, 1991 and July 9, 2001 are subject to an in lieu fee of \$2,600, unless on-site requirement or exemption applies
- ◆ Projects approved between July 10, 2001 and June 13, 2002 are subject to an in lieu fee of \$9,707, unless on-site requirement or exemption applies, or unless the owner elects to pay a per square foot in lieu fee (see next bullet)
- ◆ Projects approved on or after June 14, 2002 are subject to an in lieu fee based on unit's gross square footage. Units of 900 square feet or less are not subject to the fee.

The Housing Allocation Plan fees by unit size are listed on the following two pages.

Notes:

- ◆ Units over 4,500 square feet are assessed \$9.82 per square foot.
- ◆ Fees are adjusted on January 1 of each calendar year by a percentage equal to the percentage change in the Engineering News Record Construction Cost Index for San Francisco for the 12-month period ending November 30 of the prior year. This adjustment will offset the effects of inflation-related construction cost increases (or any deflation-related cost decreases)

ENGINEERING FEES

1. Development Engineering and Inspection Fees

These fees are charged at the time of service and are designed to help recover a portion of the costs associated with providing engineering review and inspection services. Fees are paid at the Department of Community Development, City Hall Room 5, 100 Santa Rosa Avenue.

Map and improvement plan check fees for subdivisions are collected with the submittal of the plan check package.

Inspection fees and material inspection fee is collected at the time of the final map recordation. These fees cover inspection and materials testing of public improvements constructed by development projects to ensure quality in infrastructure which will become the City's maintenance responsibility.

Time of Payment:

Improvement Plan Check fees and Subdivision Lot fees are collected with submittal of the plan check application. Non-Subdivision Improvement Plan Check fees are collected at the time improvement plans are submitted.

The amount of the Plan Check and Subdivision Lot fee is determined by City staff based on the estimated value of the public improvements and the applicable engineering fee schedule and rate. The amount due with the first plan check is 50% of the total fee, the amount due with the second plan check is 25% of the total fee, and the amount due with the third plan check is 25% of the total fee.

If additional fees are due, based on an updated engineer's estimate, this added amount shall be paid prior to signing of improvement plan mylars.

Public Improvement Inspection and Material Testing fees are paid at time of Final Map recordation.

Plan check fees paid will cover the initial plan review and two subsequent plan checks for a total of three. Additional required plan checks will be performed at the staff hourly billing rate. A deposit will be required to pay for the necessary staff work.

The following fee schedule shall apply to public improvements constructed by private development, whether or not such projects have engineered plans signed by the City Engineer.

Fee Schedule		Engineering Fees Rate		
Estimated Construction Value of Public Improvements	Fee Computation	Inspection and Materials Testing Fee	Plan Review and Lot Inspection Fee *	Combined Rate
Up to \$1,000,000	Combined rate times estimated construction value	7%	5%	12%

* Plus \$150 per lot for major and minor subdivision

- A. For the purpose of determining fees associated with this schedule, the term “development” is defined as:

Development: A project with a single subdivision agreement including a performance bond (or other approved guarantee) or a project on a single parcel.*

*The City Engineer may determine that two projects are a single project for the purpose of this definition if the projects; (1) are adjacent; (2) have each been conditioned to perform the same off-site public improvements; (3) are submitted, plan-checked and inspected at the same time; and (4) are represented by the same civil engineer.

2. SUSMP Fee \$601
3. Initial Plan Check Submittal Meeting \$390
4. Improvement Plan Revision \$527
5. Public Improvement Variance \$422
6. Alquist-Priolo and Landslide Studies Administrative Fee \$1,265
7. Deed Review/Processing \$843

BUILDING FEES

BUILDING PLAN CHECK AND PERMIT FEES

Building plan check and permit fees are established by City ordinance to recover the estimated operating costs of the Building Division. These fees are reviewed on an annual basis. Building permit and plan check fees are based on the valuation of the project or by the type of proposed project. The valuation used in determining these fees is the total value of the construction work covered by the permit including materials, labor, profit and overhead.

Fees are paid at the Department of Community Development, City Hall Room 3, 100 Santa Rosa Avenue.

(Annually adjusted): Fees are adjusted annually in July based on the percentage change in the Bureau of Labor Statistics San Francisco/Oakland/San Jose Consumer Price Index – All Urban Consumers (CPI-U).

1. PLAN REVIEW FEES:

a) Plan Review Fee Schedule

When a plan or other data is required to be reviewed, a plan review fee shall be paid at the time of submitting plans and specifications for review. Said plan review fee shall be sixty-five percent (65%) of the building permit fee except that no plan check fee shall be less than \$24. The plan review fees specified in this subsection are separate fees from the permit fees and are in addition to the permit fees. Plan Review fees are applicable to the initial plan review and two additional reviews. After third review the Building Official may assess a new plan check fee or charge hourly rates established by this fee schedule to complete the plan review process.

b) National Pollutant Discharge Permit Review (NPDES)

5% of calculated plan check fee of all valuation based building permits for new buildings or new grading projects.

c) Permit Processing Fee

This fee will be paid by the applicant or his/her representative at the time of permit application for all permit or supplemental permit modifications. The fee for this service shall be fifty-four dollars (\$54). This fee is for counter review, initialization of permit in tracking system, routing of application, and final processing of records at completion of inspection process. Fee may also be applied to application extensions, permit extensions, or other changes to permit status.

d) Partial Permit Plan Review Fee

This fee is in addition to Permit and Plan Review fees and is assessed to recover costs associated with issuing partial permits as indicated in the

California Building Code. The fee charged for this service shall be twenty-five percent (25%) of the plan review fee for the value of the work covered by the partial permit as determined by the Chief Building Official. The minimum charge for this service is eighty-seven dollars (\$87).

e) First Master Plan Review Fee

This fee will be paid by the applicant or his/her representative at the time of master plan submittal. The applicant or his/her representative will pay a Plan Review Fee based on the valuation of the work. See the attached Permit and Plan Review Fee Schedule for fee amounts.

f) Subsequent Master Plot Plan Review Fee

Plot plan reviews for which a master plan has been submitted will be charged the following fee per lot for the review of the plot plan. The applicant or his/her representative will pay this fee at the time of plot plan submittal.

Small Lots - Subdivisions or individual lots typically containing one or more of the following characteristics: less than 4,500 square feet average lot size, zero lot lines, multiple easements, common driveways. Two hundred seventeen dollars (\$217) per lot.

Standard Lots - Subdivisions or individual lots typically with an average lot size greater than 4,500 square feet, flat or padded with no zero lot lines or common driveways. One hundred eight dollars (\$108) per lot.

Hillside or High Fire Severity Zone Lots - Subdivisions or individual lots with hillside or contoured lots, may contain trees, slopes or other features to be protected. Improvements typically contain stepped footings or retaining walls. Two hundred seventeen dollars (\$217) per lot.

g) Surcharge for Plot Plan Review prior to the submittal of a recorded Final Map

All plot plans submitted for review without a recorded final map will be charged a surcharge of forty-three dollars (\$43) per lot. This fee will be charged in addition to the plot review fee and improvement plan surcharge. The applicant or his/her representative will pay this fee at the time of plan submittal.

h) Surcharge for Plot Plan Review prior to the submittal of Approved Improvement Plans

All plot plans submitted for review without approved improvement plans will be charged a surcharge of forty-three dollars (\$43) per lot. This fee will be charged in addition to the plot review fee and final map surcharge. The applicant or his/her representative will pay this fee at the time of plan submittal.

i) Additional Plan Review, Master Plan Change or Review for New Code

When plans submitted for review are incomplete or changed so as to require additional plan review, an additional plan review fee shall be charged per City Code or at a plan check rate established by this fee scheduled.

j) Reversed Plan Review

Reversed plans which exactly mirror other approved or submitted master plans will be charged a plan review fee equal to one half of the plan review fee for the master plans they mirror.

k) Expedited Plan Review

The fee is paid at time of building permit application and shall be sixty-five percent (65%) of the building permit fee. The fee is for the additional costs associated with providing the service. The Building Official must grant approval for an expedited plan review before the building permit application can be submitted.

2. PERMIT FEES:

When a building permit is required for a project, the applicant will pay the following fees based on the valuation of the proposed project. The permit fees shall be paid at the time that the building permit is issued.

a) Permit Fee Schedule
