

**COMMUNITY ADVISORY BOARD
MINUTES
April 22, 2009**

WHAT DOES SUCCESS LOOK LIKE?

We have made the CAB an essential part of the City with a vision and plan

We have a clear role and action plan with measurable goals

We have developed relationships with the community

We have support systems in place for communities to be successful ie training, relationships with city

We are operating like a Task Force and advising CC and CM on public safety issues, neighborhood planning etc.

CAB was instrumental in accomplishing collaboration between neighborhood and government

More residents are involved in their neighborhood, City government and community through CAB efforts

The CAB grants have made positive changes in the community.

We have a set of principles for neighborhood involvement which we as CAB member can endorse and help promote

We are being asked for our input from the CC/departments before they implement new programs and do problem solving

When everyone is represented by a neighborhood association

We have helped the City solve the budget shortages and communicate the needs for more volunteers.
